MY PORTOFOLIO

SUMMARY

An undergraduate student in Double Degree in Information System & Business at Bina Nusantara University with experience as an **Operations & Business Analyst** at [Kirimansayang.id](https://www.kirimansayang.id). Demonstrated ability to manage daily business operations during peak seasons (Eid and Christmas) by handling an average of **3–5 orders per day** and recording **300+ transactions** using Microsoft Excel to ensure accurate cash flow tracking and smooth operational performance over a **12-month period**. Possesses strong competencies in **Data Collection, Business Intelligence, Data-Driven Decision Support, and Technical Proficiency**. Proven ability to support decision-making through KPI tracking, trend analysis, and business intelligence solutions, while also improving operational efficiency and customer acquisition through data-driven approaches. Eager to contribute as a **Data Analyst or Business Intelligence Analyst intern** by leveraging analytical skills, technical expertise, and a strong problem-solving mindset to generate impactful insights, optimize business processes, and support strategic decision-making in a dynamic and data-driven environment.

EDUCATIONAL BACKGROUND

BINA NUSANTARA UNIVERSITY

June 2023 –

Present

Bachelor's Double Degree in Information System & Business (GPA: 3.86/4.00)

- **Field Study Interest:** Marketing Data Analytics, Advanced in Business Application Development, Data and Information Management, Advanced Information System Analysis and Design, Information System Project Management, Business and Performance Analytics, Testing and System Implementation
- **Software Skills:** Microsoft Office, SQL, PowerBI, Tableau, Microsoft SQL Server (SSMS), Figma, Visual Paradigm (UML), Notion, Java, Mendix, RapidMiner and Canva
- **Soft Skills:** Communication, Empathy, Problem Solving, Attention to Detail, Teamwork, Adaptability, Basic Analytical Skills, Integrity, Discipline and Consistency
- **Language:** English (Intermediate)

CORE COMPETENCIES

- **Data Collection:** Able to collect, organize, and manage large volumes of structured and unstructured data from various sources using methods such as data extraction, data cleaning, and data integration to ensure data accuracy, consistency, and readiness for analysis.
- **Business Intelligence:** Able to design and develop business intelligence solutions using methods such as KPI development, data modeling, and dashboard automation to monitor business performance and improve strategic planning.
- **Data-Driven Decision Support:** Experienced in supporting business decisions through analytical insights using methods such as trend analysis, forecasting, and performance evaluation to provide actionable recommendations aligned with organizational goals.
- **Technical Proficiency:** Proficient in using data analysis tools and technologies such as Microsoft Excel (Pivot Tables, VLOOKUP), SQL, and BI tools (e.g., Power BI, Tableau) using methods such as data querying, data manipulation, and automation to improve efficiency and accuracy in data processing.

WORK EXPERIENCES

KIRIMANSAYANG.ID

January 2025 – January

2026

Operations & Business Analyst

- **Managed** daily business operations during peak seasons (Eid and Christmas) by handling an average of **3–5 orders per day** and recording **300+ transactions** using Microsoft Excel to ensure accurate cash flow tracking and smooth operational performance throughout a **12-month period**.
- **Negotiated** and maintained relationships with **8 suppliers/vendors** using vendor management and cost control strategies to stabilize production costs and sustain business profitability over one year.

- **Executed** digital marketing campaigns through Instagram Ads, generating **50+ customer** inquiries and converting them into **35+ confirmed** orders using targeted audience segmentation.
- **Achieved 250+ total** orders/sales through a combination of digital marketing and direct selling strategies using customer engagement and promotion techniques to maintain consistent revenue growth during the operational period.

Impact: Improved operational efficiency and financial tracking through structured transaction management, strengthened supplier relationships to ensure cost stability, and increased customer acquisition and revenue consistency through data-driven marketing strategies and effective sales execution.

**AT HOME SPA
2025**

June 2024 – January

Project & Operations Manager

- **Conducted** structured SOP training for **6 therapists** through hands-on coaching sessions and performance monitoring to ensure consistent service quality across **100+ treatment** sessions during a **7-month** operational period.
- **Performed** market research on **12 competitors** and analyzed industry trends using benchmarking and pricing strategy methods to establish competitive service pricing and attract **45+ new customers within 6 months**.
- **Managed** inventory and procurement for **40+ operational** items using inventory tracking and stock planning methods to maintain availability of supplies and ensure uninterrupted daily operations.
- **Supervised** the flow of **80+ incoming** and outgoing items and conducted routine quality control checks using inspection and documentation methods to ensure all products met health and safety standards for customer use.

Impact: Enhanced service quality consistency through structured training and quality control, improved customer acquisition through market-driven pricing strategies, ensured operational continuity via effective inventory management, and strengthened team collaboration to support overall business performance.

ORGANIZATIONAL AND COMMITTEE EXPERIENCES

CORNERSTONE CHURCH

July 2023 –

Present

Youth Mentor & Speaker

- **Coordinated** and facilitated weekly mentoring sessions for **5–10 youths** using structured small-group discussions to support leadership development and personal growth on an ongoing basis.
- **Designed** and delivered **2+ speaking sessions** to an audience of **50+ participants** using storytelling and engagement techniques to enhance audience involvement and encourage active participation in community activities.
- **Provided** continuous guidance and mentorship through regular coaching and communication using interpersonal and leadership development approaches to strengthen confidence, teamwork, and personal accountability among participants.

**CORNERSTONE CHURCH (YOUTH INVASION & GLOHELLA CHRISTMAS)
2024**

December 2023 – July

Event Coordinator (Livestream & Technical Operations)

- **Led** technical livestream operations for **2 large-scale annual events**, ensuring stable video and audio output to reach **100+ virtual viewers** using livestreaming systems and broadcasting tools.
- **Coordinated** a technical team of **5–7 members** (camera operators, audio crew, and switcher operators) using task delegation and workflow management to ensure seamless event execution with zero technical disruptions.
- **Installed** and tested complex virtual operation systems within **48 hours prior to events** using system integration and technical testing methods to deliver a smooth digital experience for online audiences.

PROJECTS AND PORTOFOLIOS

- **US YouTube Performance Analysis & Engagement Dashboard** - Transformed 16,400+ raw YouTube records into a strategic Excel dashboard, delivering actionable business intelligence from large-scale datasets. - [Link](#)
- **Coffeeshop Sales Intellegence Analysis & Dashboard** - Analyzed and transformed 1,000+ transaction records and 900+ customer profiles into a dynamic Excel dashboard to track \$45K+ in international revenue. - [Link](#)
- **Telecommunications : Optimizing Customer Acquisition Dashboard** - Developed an interactive telecommunications dashboard using Tableau for channel and visitor behavior analysis. Identifying peak demand patterns and regional trends to optimize marketing efficiency and drive profitability. - [Link](#)
- **OrCo System Analysis** - Designed a coffee ordering system using BPMN & UML to streamline business flows and reduce customer queue times. - [Link](#)

- WarungQ System Analysis - Designed scalable architecture for WarungQ, a mobile F&B platform. Delivered end-to-end UML modeling (Use Case, Class, & Sequence Diagrams) and robust relational database designs. - [Link](#)
- Kirimansayang.id - Managed end-to-end operations and optimized profit margins by 40% through data-driven pricing strategies. - [Link](#)
- AtHomeSpa Ops - Developed SOPs to streamline service delivery and executed digital marketing campaigns to acquire 30+ recurring clients. - [Link](#)
- VeggieBox E-Grocery Platform - Engineered a Mendix-based e-commerce platform with a 'Recipe-to-Cart' workflow. Integrated dietary personalization with real-time inventory management to optimize supply chain efficiency and user retention. - [Link](#)
- Retail Database System - Architected a normalized database (3NF) and executed complex SQL queries for data validation and sales analysis. - [Link](#)
- Multi-Branch POS Database Architecture - Architected a scalable Point-of-Sale relational database for a multi-branch F&B enterprise using SQL. - [Link](#)
- Java Employee Management System - Developed a desktop-based CRUD application using JavaFX and JDBC. Implemented Object-Oriented principles and the Singleton design pattern to manage database connections and streamline employee record management. - [Link](#)
- Xuemi: F&B Order Fulfillment Database - Designed an end-to-end order fulfillment database for a high-volume F&B franchise. Delivered conceptual models, logical schemas, and ERDs for scalable transactions. - [Link](#)
